- Enter your **Username** (10-digit office phone number) followed by a lowercase "a", then the "@" symbol and your email domain name (e.g. **5063451234a@companyname.ca**)
- Enter your **Password**
- Remember to check on **Remember Me** to ensure your password is saved for future log ins

Configuring Client Preferences

- Select **Settings** icon from the home row on the bottom of the screen
- **Account > Mobile Data Network > Use When Available > Toggle to On**
- **Preferences > Run in Background > Toggle both to On**

Contacts for IM/Presence

- Select **Contacts**
- Select **Friends** tab located at the top of your screen to see your personal contacts from your Personal Address Book

Editing Contacts for IM/Presence

- Select the **Contacts** icon from the home row at the bottom of the screen
- Next, select the **Contacts Tab** from the top of the screen
- Select the contact whose **Presence** you want to monitor (in iPhone Contacts)
- You will be taken to that contact's details screen
- Select **Edit**
- Scroll down to the bottom
- In the Softphone field > Manually enter the contact's UC SIP URL (Ex. **5063451234a@companyname.ca**)
- **TIP:** You may want to have your PC or web client open to easily locate Contacts
- Select **IM** for next screen
- Select a contact for **Send/Receive IM/Presence**
- Tap **Done**
- You should now see that contact's Presence in your Contacts Tab

Searching the Corporate Directory

- Select the **Contacts** icon from the home row at the bottom of the screen
- Next, select the **Directory** tab at the top of the screen
- Type in a name on the **Search** field
- The application will display all the names that match
- Select the **contact**. You can call, start IM or even add as a friend by clicking on the **Add as friend** button

Making Calls

- Simply dial the number from the **Phone** tab OR
- Select contact's name from your address book. This will take you to their individual contact screen
- Select the appropriate number you wish to call
- Tap **Call**

Answering Calls

- When a call is presented, tap **Answer**
- **NOTE:** Once call is active, you can tap on the **More** icon and have the ability to either Start Recording or Transfer the call

Call Grabber

This feature allows you to seamlessly grab an active call between devices with access to your UC line (Mobile Client, IP Telephone, PC Phone).

- Tap 
- Tap **Call Grabber**. The iPhone grabs the call from the desk phone or PC Client.

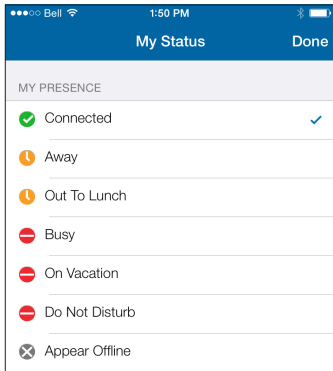

Call Logs / Call History

- Select the **History** icon from the home row on the bottom of the screen
- Select a number to return a call
- **NOTE:** From the tabs at the top of the screen you have the options to view all inbound, outbound, and missed calls or filter based on call type

	Incoming call icon
	Outgoing call icon
	Missed call icon
	Click to see details and other available actions
	Click to clear all or certain entries
	Located in top, right hand corner of the screen
